科学研究 SCIENTIFIC RESEARCH

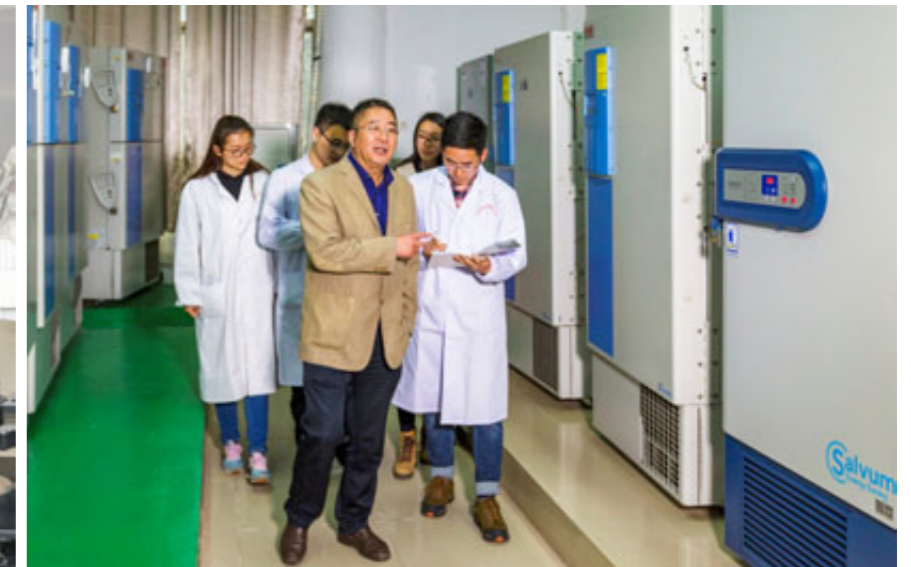

学院坚持“面向需求、主动服务、抓大促新、交叉集聚”，发挥学科交叉融合优势，积极推进科技与社会、科技与健康对接，布局 and 启动了生物医药、脑科学、环境健康大数据、转化医学等一批重点建设方向，在神经系统性重大疾病、临床肿瘤、生物医药、传染病、外科与器官移植、环境医学等若干研究领域和研究方向上形成优势和特色。

TMC, by taking advantage of its strengths in multiple programs, actively promotes the combination of scientific research and health-promoting projects. The college is now entering a variety of fields such as biological medicine, scientific instruments and medical equipment, brain science, big data of environment health, and translational medicine. The college is strong in the researches of major nervous system diseases, clinical oncology, biological medicine, infectious diseases, surgery and organ transplantation, environmental medicine.
